"., Please Help! I am attempting to convert a 11-Page MS Word document to a PDF format. I used the convert to pdf command from the "File" menu. As you can see, my parameters for the command were "Convert, -t,,x," which I did after converting from word to html. The command ran successfully and the converted document has.pdf extension but when I open it there is no PDF format displayed. I'm not sure what I did wrong or what to do next. Please help! -Thanks Clifton A: A short answer is that that isn't what the command is for, as you would get a similar error if you tried to use the Word to PDF command as well.
