(ISO), a comma is used wherever there is a decimal marker. GERMAN NORM. August 2000 53505. [. Continued on pages 2 to 5.] In order to imagine in more or less detail how a modern electronic computer works, you just need to imagine that you are trying to squeeze the whole world, namely the entire Universe, into a room of approximately 300 square meters. Every day, thousands of events take place in this room, with the participation of millions of people, with many computers. This room represents the world's most famous structure in the field of computer science - the Internet, or the worldwide information network. fffad4f19a
