Share and enjoy!.Q: What parameters do I have to pass to be able to auto resize an image on WP7 I want to resize an image on my WP7 app. Does anyone know what parameters do I need to pass to the resize method to make it auto resize the image? Thanks in advance. A: You need the ImageSink.Sink method, try var imageSink = new ImageSink(0, 0, Width, Height); Use the full imageSink to set the width and height. BitTorrent, the peer-to-peer file-sharing system, is best known for allowing users to share movies, music, and other large files. However, in recent years it's evolved to a more general purpose protocol for sharing almost any type of file, including Windows 8 applications. When you first run BitTorrent, you are taken to the home screen, where you can log in with your Microsoft account. Underneath your name and avatar are three links to places you can share: the "Home," "Account," and "Downloads" tabs. These tabs will vary depending on whether you are logged into your Microsoft account, and the page will even vary based on the type of file you are downloading. The "Home" tab is where you can find your most commonly shared files. Your local downloads are featured on the "Downloads" tab. On the "Account" tab, you'll find your shared files from the previous 30 days. If you're signed in to multiple Microsoft accounts, your files will be shown for the account you last logged in. The more popular you are, the more downloads you'll have available. If you're not a Microsoft account user, the "Home" and "Account" tabs will be missing, since you're not logged in to a Microsoft account. Instead, you'll just have the "Downloads" tab, where your most popular
