Category:Windows games Category:Guitar Hero Category:Video game franchises Category:Video game franchises introduced in 2003Q: Can I configure Xcode 4 to use something other than a single debugger per project? I work on several different projects simultaneously in Xcode 4. This is sometimes inconvenient, because I need to open several separate windows to debug code. Is there any way to configure Xcode so that I can run all debuggers for different projects at the same time? The reason for the question is that I run hundreds of different projects in an automated build process, and I want to be able to use all the available debuggers when I need to work on a particular project. A: I think you can now configure multiple breakpoints in a project. This will enable you to run multiple instances of Xcode simultaneously. A: I do this by putting each project in a separate workspace, and setting the "Breakpoints" property in each project to "Unset." LAS VEGAS -- Randy Couture, in a candid interview with ESPN.com, says he is finally retiring from the sport and is still figuring out what he will do next. In a wide-ranging chat about his latest book, "What Doesn't Kill You: A Life Lived for Mixed Martial Arts," published by Simon & Schuster, Couture also spoke about why he chose to retire and the possibility of fighting in his 50s. Couture (37-11) says he was surprised to learn that the UFC decided to allow the former UFC light heavyweight champion to come out of retirement to fight Jones at UFC 197. UFC 197 will take place March 2 at the MGM Grand Garden Arena in Las Vegas. Couture says he is so excited to fight that he would "try to hurt somebody" in order to get back in the octagon. "This is the greatest time of my life," Couture said. "The way I look at it, this is the best possible place I can be in my life. I'm not just fighting for myself, I'm fighting for the fans and what we've built here. This is a culmination of what we have done, and we've been doing it for more than a decade. "It's the first time in my life I can't control my own destiny. I have to go to somebody else for my shot. This is the
