I just bought CS6 Master Collection and I am very happy with it, but on my Mac I can't find where I can save the templates. Most of my system crashes while opening the documents in InDesign and the CS3 version is that most stable. How can I download the latest version of Adobe CS5.5? My system is Windows XP. - 20488509. To use this serial number, you must purchase the software after January 1, 2019. However, if you already purchased the software before January 1, 2019, and your serial number is still valid, you can use your serial number to qualify for a new CS6 Upgrade which is available for eligible CS5 and CS5.5 users. Sep 14, 2018 InDesign CS6 does not read Type 1 fonts correctly when on a Mac. Try saving the.afm file to a Windows computer and opening it in InDesign. Make sure that the file was not saved as a.psd or.ps and was saved to.afm instead. InDesign CS6 does not read Type 1 fonts correctly when on a Mac. Try saving the.afm file to a Windows computer and opening it in InDesign. Make sure that the file was not saved as a.psd or.ps and was saved to.afm instead. Sep 5, 2017 I purchased version CS6 and now I got a different serial number than my old CS5. I don't know why and the CS6 serial number is not working either. I will not be able to use my license for any new CS6 edition that Adobe will launch. From a customer: So the CS6 web page says that I can run CS5 on Windows and Mac, but it doesn't mention that it's only for the Mac version of the software. I'm sure there are some CS5 users who would love to have this offer, but with my CS5 license, there's nothing I can do. Sep 4, 2017 I purchased a few months ago CS6 Master Collection Mac. I live in a country with very high internet speed so I was
