Dedicated group of people of all walks of life, need to work with that extra edge. This channel is solely for us to help each other out and to offer our gratitude to each other, for your support, to let you know how we are doing. We have been keeping each other up to date of the hurricane latest news and to share the sunshine of the day with each other. Filipino, when storms are included, they are severe enough to kill hundreds of people, the deforestation is destroying tons of vegetation, lives are being lost, homes are being destroyed and even harming areas that were previously safe. We should never take it for granted that we have it, but we should enjoy it at times. I just want to let you know that being a channel member, talking about the latest news, and having lighthearted conversations, are the things that makes us smile and think of funny quotes.
