SAPO TraceViewer Crack Free Registration Code Free [2022]

- The TraceViewer is a fast and useful tool used to analyze trace files in an efficient way.
- It has the ability to show one or multiple plot of the trace file.
- You can also work on specific data of the whole trace to find your peaks, or you can work on multiple different data.

User's Interface:

- TraceViewer allows you to open a new trace file in the web browser window. It is possible to save, delete and rename the trace file.
- The main window of TraceViewer shows a summary of the trace file. In this window, you can search, filter, sort or export results.
- The TraceViewer uses a graph chart to display time-dependent data in the main window. The button "Graph" allows you to define a new series. The button "To Graph" allows you to select an existing trace graph.

Search/Filter:

- TraceViewer allows you to search your trace file using several kinds of filters.
- Some of them are based on the element, the category, the time range, the start and end positions, the number of occurrences, the data type, the data value and the maximum time value.
- The TraceViewer has a dialog box where you can select one or several filters.

Sort:

- The TraceViewer allows you to sort your trace data by element, category, time, number of occurrences, data type, data value and the maximum time value.
- The user interface allows you to define a new order by two filtering criteria.

Trace Graph:

- The graph chart allows you to display trace file data in a time-dependent way. You can save your graphics as an image file.
- You can define one or several series in the trace graph:
- The user interface allows you to define a new series or to select one from existing.

Data Field:

- The TraceViewer allows you to select one or several data field.
- The user interface allows you to define a new data field.
- Once a data field is defined, it can be filtered, sorted or exported.

Export Trace/Graph:

- The TraceViewer allows you to export the trace or the graph to a pdf file.
- The user interface allows you to define a new graph or to select one from existing.

I Think you have a
